

How can Donald Trump be the GOP Presidential nominee?

In Oklahoma, 77% of public school students didn't know that George Washington was the first President, and only 2.8% could pass the Citizenship Test¹. 3.5% of the students in Phoenix passed that test². 25% of public school teachers in Texas believe humans and dinosaurs lived together on the Earth³. Nationwide, 68% of public school children don't have basic reading proficiency by the end of 3rd grade⁴. 50% of high school graduates are barely ready for college⁵. Half of Americans between 18-24 don't think it is important to know the location of foreign countries where news is happening⁶. 18% of Americans believe the sun revolves around the Earth⁷. 74% of Republicans in the U.S. Senate and 53% in the House deny the validity of climate change⁸. 40% of adult Americans haven't read a single book in the last year⁹. 42% still believe God created humans 10,000 years ago¹⁰.

That's how.
