

THANK YOU FOR WEARING THE PDR BUTTON

OR PINNING IT TO YOUR BACKPACK OR PURSE, IF NOT AT WORK THEN ELSEWHERE

We invite you now to do a simple experiment. Ask random ordinary people you encounter during the course of your day—at work or school or while doing errands—“What do you think of what my button says? Good idea or bad idea?” (You have to ask people because most people just ignore buttons otherwise.)

It may surprise you, but most people will say it's a good idea, or even a great idea. See for yourself!

But most people will also say “It's impossible; it can never happen because hardly anybody else wants it to.”

This is exactly what the billionaire class wants people to think. This is why the rich who own and control the mass AND alternative media cancel all expressions of support for the button's message; it's to make people feel hopeless and think that resistance is futile. This is how the rich remain in power.

We produced these buttons to make it easy for people to discover that they are NOT alone in wanting to remove the rich from power to have real not fake democracy with no rich and no poor. We hope you'll carry extra buttons with you and give them to people who want to

wear them so they too can discover the truth about what most people REALLY want.

Please visit www.PDRBoston.org to see how to obtain buttons (and similar stickers) and to read about why it really is possible to remove the rich from power and have a genuinely democratic society with no rich and no poor—an egalitarian revolution.

It won't be easy, and it will take more than voting since the billionaires with the real power were not elected and thus cannot be un-elected. But when millions of people KNOW that millions want to do it, then the resulting confidence will turn hopelessness into hopefulness, and it will indeed be possible—for the vast majority that honors the Golden Rule to prevail over the small minority that attacks it with inequality and domination.

Let's Win Our Short Term Goals Too, Fast!

Nothing makes the rulers more willing to grant our short term demands--for things such as a \$15/hr minimum wage, or better pay and conditions and benefits at work, or affordable health care and college—than a growing egalitarian revolutionary movement that makes them fear there will be revolution unless they grant such demands.
